

Goldmine Starter

A free one-page map for viral social money ideas

What this is: a quick taste of the full Goldmine PDF. The full version will personalize ideas based on your skills, interests, time, budget, platform preference, and comfort on camera.

Three starter plays to think about

- **Faceless AI shorts:** pick one niche question, turn it into a 30-second explainer, and repeat the format daily.
- **AI influencer affiliate page:** create a niche character or editorial page, then route attention into product links and an email list.
- **UGC ad concept factory:** make hooks, scripts, and rough AI-generated ad concepts that small brands can test.

Best first niche filter

Choose something with: frequent trends, obvious products/tools to recommend, and content people already share. Good examples: AI tools for students, creator gear, fitness shortcuts, travel hacks, finance explainers, or productivity workflows.

Your first move this week

1. Pick one niche and one platform.
2. Write 10 hooks before making anything.
3. Ship three posts using the same repeatable format.

Want the full pack? The \$1 Goldmine PDF expands this into 15–25 ranked ideas, a niche map, channel starter pack, AI workflows, monetization paths, and a 7-day action plan.

No guaranteed-income claims. Use this as a practical starting map, not financial advice.
